

Insurance discount request for GPS recovery program

Dear Insurance Agent:

The installation of a (passive) No Theft GPS Vehicle Tracking & Recovery System is equipped on my vehicle. This GPS System provides both Email and Text messages to a 24/7 theft recovery assistant with notification of a Tow or Potential Theft. If my vehicle moves without the ignition being engaged, an alert is triggered and the No Theft GPS recovery process is initiated.

This GPS Vehicle Tracking & Recovery system qualifies me for your maximum discount on my comprehensive insurance coverage. Go to: www.NoTheftGPS.com for more information with regard to our products and services.
